Dog Registration Form

Thank you for your letter/phone call regarding re-homing your dog. If you could please complete the enclosed form and return it to the office along with a covering letter, minimum of two good quality photographs (these can be e-mailed if more convenient to enquiries@dogaidssociety.com) of your dog and copy of the dog's vaccination card if your dog is vaccinated.

Once we have these details we will display your dog's information on our website. Once a potential new owner has been found we will carry out a home visit to ensure they match the dog's requirements. After roughly 2 weeks we will carry out a second visit to ensure the dog has settled in his/her new home.

You should also be aware that the Society will neuter the dog once it has settled. By signing over ownership to us we are unable to return the dog to you. **However, if your dog proves to be aggressive to people once re-homed, we will have to return him/her to you, as unfortunately we do not have facilities to retrain aggressive dogs. We cannot re-home dogs who are aggressive to people.**

We also please ask that you inform us immediately if you re-home your dog privately. This saves the Society from arranging unnecessary home visits.

After your dog is re-homed, you are welcome to keep in touch with the Society and we will try our best to provide updates on how he/she is settling in his/her new home.

If you would like to register your dog with the Society please return the enclosed form. Please do not hesitate to contact us at the above number if you have any queries.

Please check you have enclosed the following items:

- Copy of the vaccination card
- Dog registration form
- Good clear quality coloured photographs of your dog. Please see the enclosed guide on how to take a suitable photo of your dog for our website. Please send a minimum of 2 photographs, however if you are able to send more photographs this would be beneficial. If we receive unsuitable photos we will be unable to put your dog onto our website until we receive suitable photos.

To find out how we use and protect any information you give us in this form, please see our privacy policy on our website www.dogaidssociety.com or contact us (see details below) and we will send you a copy of it.

Re-homing your Dog

Making the decision to re-home your dog is not easy. It may be due to a change of circumstances or simply that you can no longer give your dog the care and attention that they need. The Society offers a re-homing service that prioritises the dog's needs. We do not have kennels so we will ask you to continue to care for the dog in the meantime until a loving new home can be found. Many dogs can find it stressful being left behind in kennels; this can lead to behavioural problems developing which can make finding the right home more difficult. You would also have the uncertainty about how long your dog would have to wait in kennels until they are re-homed. Your dog would much prefer to live in its current house until they can be placed in their new home.

This is how the Dog Aid Society re-homes all dogs.....

1. The owner is asked to complete a questionnaire about the dog's personality, current circumstances and needs.
2. Once the Society receives the forms the Welfare Officer will be in touch to arrange an assessment of the dog. If suitable for re-homing the dog's information is added to our website where potential new owners can view and apply for the dog.
3. When a suitable application comes in, the Welfare Officer meets the potential new owners in their home to ensure they are friendly, have relevant experience, can financially care for the dog and are going to offer a long term, stable home.
4. When possible the Welfare Officer will take the dog to the vets for a health check before going to the new home.
5. The dog will settle with the new owner for two to six weeks depending on the dog and then the Welfare Officer will visit them again to make sure they are settling, happy and wagging their tail!
6. The Society always encourage updates and photographs from the new owners.

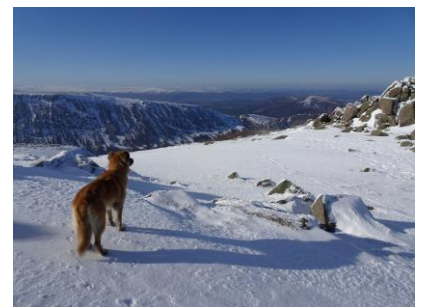

Here are some happy dogs that have been re-homed by the Society.....

Dodge in his new garden

Wizzie out enjoying a walk carrying his favorite toy

Charlie enjoying the views

Your dog's feelings and welfare are very important to us. We only place dogs in exceptional homes.

For more information please call 0131 668 3633.
